

Soc 596: Computational Social Science

Matthew J. Salganik
Department of Sociology
Princeton University

01-02-Introduction to the course

In this chunk, the goal is to introduce the course and begin creating a community

- ▶ SWBAT *describe* the goals of the course
- ▶ SWBAT *describe* the activities that they will do in the course
- ▶ SWBAT *describe* the style of the course
- ▶ SWBAT *meet* other people in the class with similar interests

What are the goals of this course?

As described in the [syllabus](#)

As described in the [syllabus](#)

1. Students will *describe* the opportunities and challenges that the digital age creates for social research.

As described in the [syllabus](#)

1. Students will *describe* the opportunities and challenges that the digital age creates for social research.
2. Students will *evaluate* modern social research from the perspectives of both social science and data science.

As described in the [syllabus](#)

1. Students will *describe* the opportunities and challenges that the digital age creates for social research.
2. Students will *evaluate* modern social research from the perspectives of both social science and data science.
3. Students will *create* modern research proposals that blend ideas from social science and data science.

As described in the [syllabus](#)

1. Students will *describe* the opportunities and challenges that the digital age creates for social research.
2. Students will *evaluate* modern social research from the perspectives of both social science and data science.
3. Students will *create* modern research proposals that blend ideas from social science and data science.
4. Students will *practice* the techniques needed to actually conduct their proposed research (optional).

*Bit by Bit:
Social Research in the Digital Age*

What are the activities of this course?

As described in the [syllabus](#)

1. Collaborative annotation and feedback (x5) [please keep your annotations in the group]

As described in the [syllabus](#)

1. Collaborative annotation and feedback (x5) [please keep your annotations in the group]
2. Shorter research proposal (x2)

As described in the [syllabus](#)

1. Collaborative annotation and feedback (x5) [please keep your annotations in the group]
2. Shorter research proposal (x2)
3. Proposal review (x4)

As described in the [syllabus](#)

1. Collaborative annotation and feedback (x5) [please keep your annotations in the group]
2. Shorter research proposal (x2)
3. Proposal review (x4)
4. Longer research proposal (x1)

As described in the [syllabus](#)

1. Collaborative annotation and feedback (x5) [please keep your annotations in the group]
2. Shorter research proposal (x2)
3. Proposal review (x4)
4. Longer research proposal (x1)
5. Pitch (x1)

As described in the [syllabus](#)

1. Collaborative annotation and feedback (x5) [please keep your annotations in the group]
2. Shorter research proposal (x2)
3. Proposal review (x4)
4. Longer research proposal (x1)
5. Pitch (x1)
6. Overall manuscript feedback (x1)

As described in the [syllabus](#)

1. Collaborative annotation and feedback (x5) [please keep your annotations in the group]
2. Shorter research proposal (x2)
3. Proposal review (x4)
4. Longer research proposal (x1)
5. Pitch (x1)
6. Overall manuscript feedback (x1)
7. Lab (x5) [Optional] [let's discuss logistics]

How is on screen reading? Anything we can do to make it better?

What is the style of this course?

- ▶ active (I want you doing stuff)

- ▶ active (I want you doing stuff)
- ▶ opinionated (for the sake of learning)

- ▶ active (I want you doing stuff)
- ▶ opinionated (for the sake of learning)
- ▶ constructively critical

- ▶ active (I want you doing stuff)
- ▶ opinionated (for the sake of learning)
- ▶ constructively critical
- ▶ big tent

- ▶ active (I want you doing stuff)
- ▶ opinionated (for the sake of learning)
- ▶ constructively critical
- ▶ big tent
- ▶ evolving (so your feedback is important)

Who is else is here and what do we have to learn from each other?

About me

Why are you taking this class?
Think-pair-share (on the board)

About you

- ▶ Name
- ▶ Year
- ▶ Department/major
- ▶ Interests
- ▶ Past experiences or future plans

In this chunk, the goal is to introduce the course and begin creating a community

- ▶ SWBAT *describe* the goals of the course
- ▶ SWBAT *describe* the activities that they will do in the course
- ▶ SWBAT *describe* the style of the course
- ▶ SWBAT *meet* other people in the class with similar interests
