The Heilmeier Catechism (DARPA):

- ▶ What are you trying to do? Articulate your objectives using absolutely no jargon.
- ▶ How is it done today, and what are the limits of current practice?
- ▶ What is new in your approach and why do you think it will be successful?
- ▶ Who cares? If you succeed, what difference will it make?
- ▶ What are the risks?
- ▶ How much will it cost?
- ▶ How long will it take?
- ▶ What are the mid-term and final “exams” to check for success?
